

Sales Analytics

Problem, Objectives & Methods

2026

DMART
ANALYTICS
INITIATIVE

**ACHIEVING PERFORMANCE SUSTAINABILITY IN PRODUCT SALES
TO ANALYZE PRODUCT/REVENUE IN ORDER TO SUSTAINABLE SOLUTION**

This analysis addresses the challenge of achieving sustainable performance in Dmart product sales by analyzing revenue data to identify growth solutions and optimize retail sector management.

Techniques/Strategies/Process

5W Techniques: Who, What, When, Where, Why

5 Why Analysis: Root Cause Investigation

BCG/ROI Model: Portfolio & Investment
Evaluation

Ishikawa Diagram: Process Improvement Factors

1. 5W TECHNIQUE – UNDERSTANDING THE SITUATION

The 5W technique helps to gather complete information about a business problem or dataset.

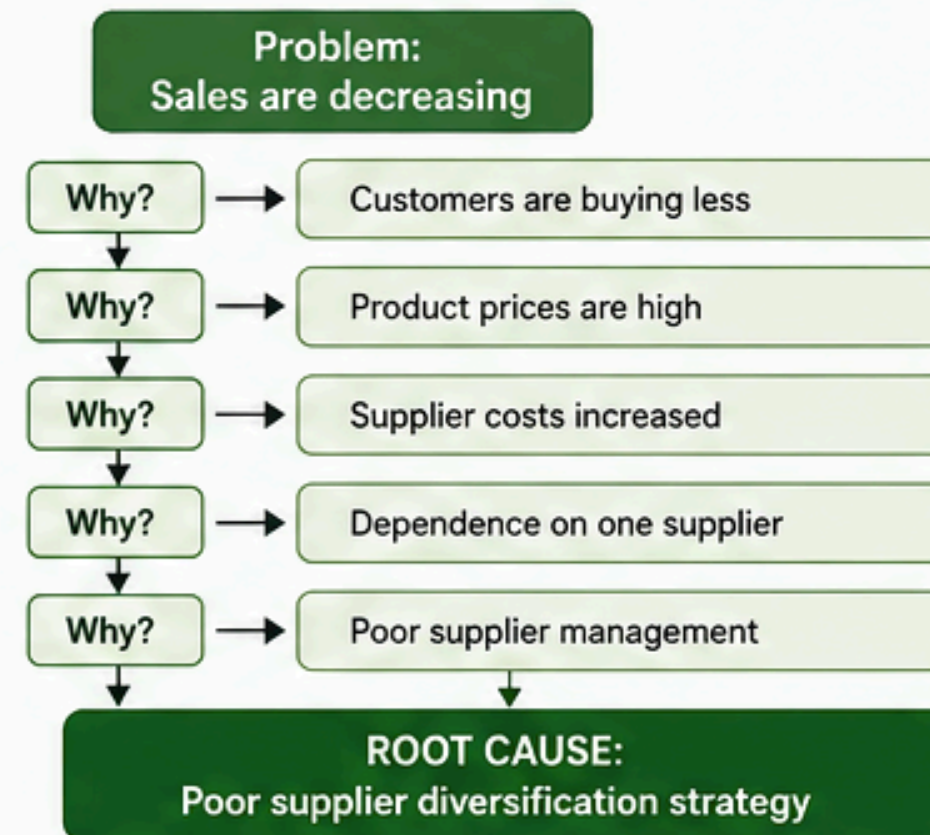

Who	Who is involved? e.g., Customers, Employees, Suppliers
What	What is happening? e.g., Sales are decreasing
When	When does it happen? e.g., During weekdays
Where	Where is it happening? e.g., Mumbai Store
Why	Why is it happening? e.g., High prices, Low offers

Purpose: Understand the situation, requirement gathering, initial investigation, and better decision making.

2. 5 WHY ANALYSIS – ROOT CAUSE ANALYSIS (RCA)

The 5 Why technique is used to identify the root cause of a problem.
The question “Why?” is asked repeatedly.

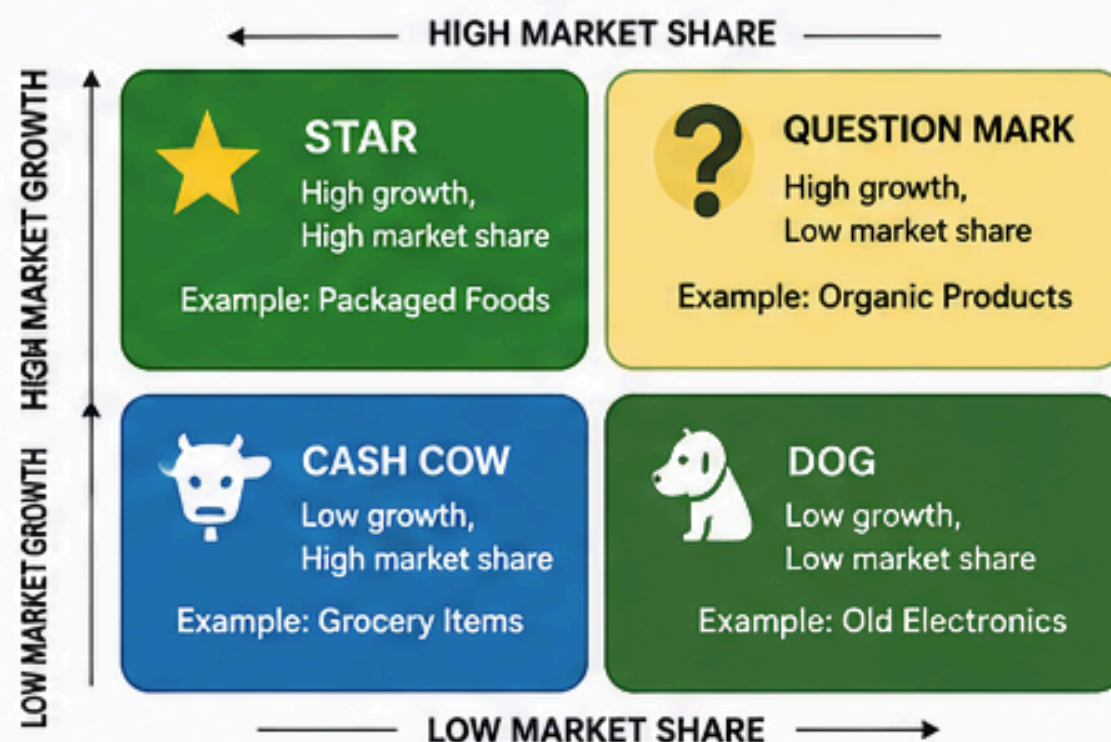

Purpose:

- Root Cause Analysis (RCA)
- Problem solving
- Prevents repeated failures
- Improves decision making
- Supports Lean & Six Sigma

3. BCG MATRIX – PRODUCT PORTFOLIO ANALYSIS

BCG Matrix helps to classify products based on Market Growth and Market Share.

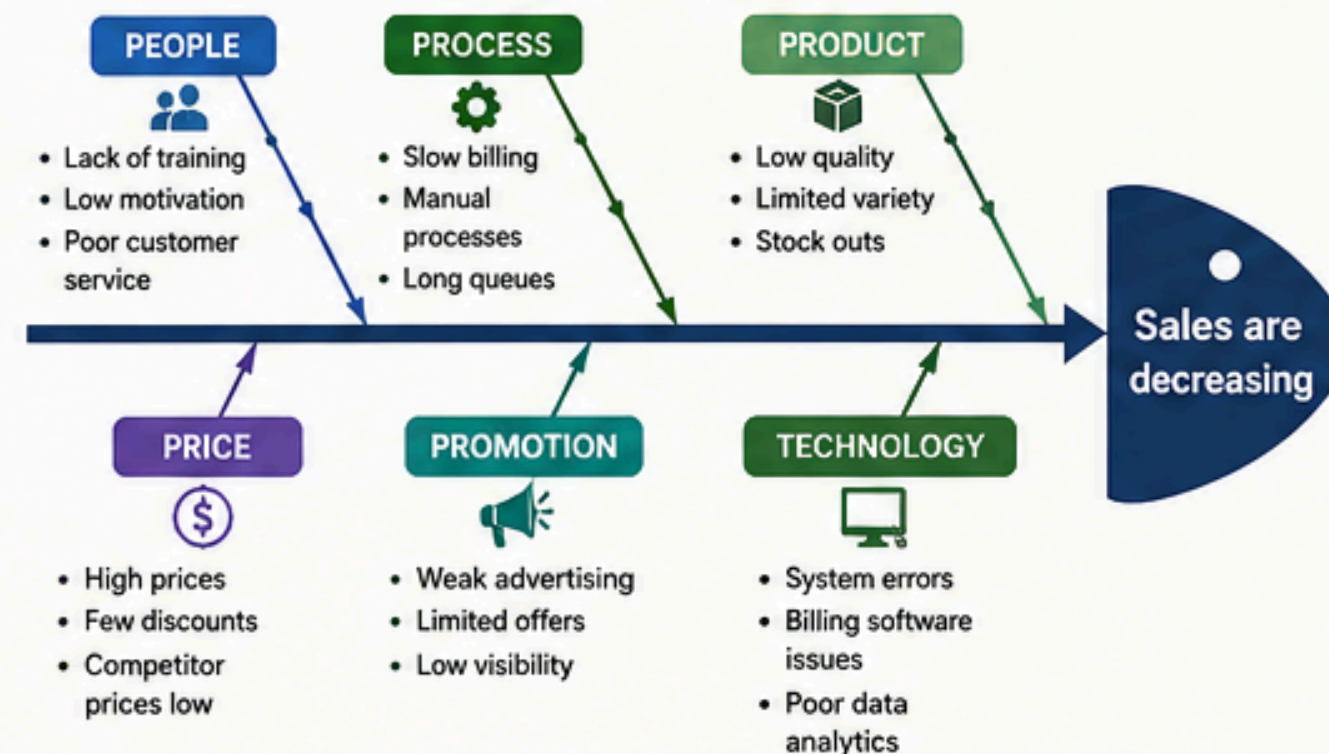

Purpose:

- Product portfolio management
- Strategic planning
- Resource allocation
- Decide where to invest or divest

4. ISHIKAWA DIAGRAM – PROCESS IMPROVEMENT FACTORS

Ishikawa Diagram (Fishbone Diagram) helps to identify all possible causes of a problem.

Purpose:

- Identify all possible causes
- Process improvement
- Quality management
- Team brainstorming
- Supports root cause analysis

Results & Outcomes

ROOT CAUSE ANALYSIS

Identified critical drivers of sales performance via 5 Why analysis.

PROCESS IMPROVEMENTS

Implemented targeted changes guided by Ishikawa Fishbone findings.

PORTFOLIO OPTIMIZATION

Strategic interventions aligned with BCG/ROI insights for product mix.

+18%

REVENUE GROWTH
ACHIEVED

IMPROVEMENTS ACHIEVED

- 01 Through systematic root cause analysis and process evaluation, we identified the critical drivers impacting Dmart's sales performance. The Ishikawa Fishbone diagram revealed key factors across people, processes, and systems that required targeted interventions for sustainable improvement.

REVENUE OUTCOMES

- 02 Demonstrated increasing revenue trends through optimized product mix strategies. BCG matrix analysis enabled portfolio repositioning, moving products from Question Marks to Stars. Sustainable sales growth confirmed by ROI visual analysis showing positive returns across key product categories.

CLOSING SUMMARY

- 03 Data-driven analytics enable ongoing performance sustainability and strategic retail sector management. The combination of 5W, 5 Why, BCG/ROI, and Ishikawa methods provides a comprehensive framework for continuous improvement in Dmart's product sales operations.
